

Exhibit DS-3
DESC Response to ORS 2-18 &
CONFIDENTIAL
Attachment (in native form)

**DOMINION ENERGY SOUTH CAROLINA, INC.
OFFICE OF REGULATORY STAFF'S SECOND AND CONTINUING REQUEST
FOR PRODUCTION OF BOOKS, RECORDS, AND OTHER INFORMATION
DOCKET NO. 2019-226-E**

REQUEST NO. 2-18:

Provide an Excel file containing the following information:

- a) Hourly DESC loads for each of the years 2015 through 2019; and,
- b) Hourly temperature data for each of the years 2015 through 2019, for the weather station(s) used by the Company in its long-term energy forecast modeling. To the extent that more than one weather station set of data is used by the Company, please provide the weighting scheme used to combine the weather station data and the weights for each of the years 2015 through 2019.

RESPONSE NO. 2-18:

- a. See "Confidential Attachment to Response 2-18." **This confidential and sensitive information is being provided pursuant to S.C. Code Ann. § 58-4-55 and is subject to non-disclosure.**
- b. See a. Note that "tcae" and "tchs" refer to the ambient temperature in Columbia and Charleston respectively. When combined, these temperatures are averaged with a 50% weighting on each.

PERSON RESPONSIBLE: Joseph Lynch
